

- **Name:** Tim Lau
- **Current Position on Council:** National Advocacy Representative
- **Reason(s) for becoming involved with CSHP:**

I have always been involved with CSHP, as past BC Branch Programs Chair and ID PSN Chair, and as the current representative on the Antimicrobial Stewardship and Resistance Committee of AMMI Canada. I feel it is important for us to support our colleagues and promote the profession, and this seems like the right time for me to become more involved on BC Branch Council.
- **Current employment position(s) & place of employment:**

Clinical Supervisor & Pharmacotherapeutic Specialist in Infectious Diseases & Antimicrobial Stewardship, Pharmaceutical Sciences, Vancouver General Hospital
Pharmacy Lead, ASPIRES, Quality and Patient Safety, Vancouver Coastal Health
- **Most memorable time in pharmacy:**

PharmD school at UBC was one of the most memorable and challenging times in my pharmacy career. It was an intense experience, but I made great friends and learnt a lot from my mentors, while “growing” my brain. I am glad I went through it, as without it, I would not be doing what I am now.
- **Alternative profession, if hadn't chosen pharmacy & if money wasn't an issue:**

Opera singer
- **Any other information, you wish to share:**

In my other life, I enjoy performing as an actor and singer.
